

## PARTNERS & NETWORK

Initiated by the Federal Foreign Office, the programme was founded in 1998 and is jointly offered by Freie Universität Berlin and Technische Universität Berlin.

We have a top-class network and strong ties to our partners. Especially with regards to teaching, we are cooperating with important political organisations and think tanks situated in the capital. They offer their support in terms of internships, student projects and other events.

## STUDY PROGRAMME

The Postgraduate Master of European Studies is a one-year full-time / two-year part-time MA programme that equips a class of approximately 25 students with an in depth, interdisciplinary knowledge about the European Union. In a unique cooperation of Freie Universität Berlin and Technische Universität Berlin, the programme aims to prepare highly qualified graduates for positions in work environments related to Europe.

Small class sizes and an exclusive teaching environment promote an intense exchange both with the lecturers and the fellow students. The teaching staff consists of leading scholars in law, economics and social sciences from Berlin's renowned universities, selected academics from other German and international universities, as well as experts from think tanks and the professional field. On-the-job-experience and networking are integral elements of the programme.
